SDX-Compact

Spend less time collecting data
More time using it

Earthmoving Insights Anytime. Anywhere.

SDX-Compact captures terrain data while your machines work, giving you real-time cut/fill analytics, progress tracking, and verified quantities in SDX-Cloud.

Heath - Surveyor, United Grading

"This is a phenomenal setup. It has made our lives so much simpler. The data output, the information that it gives us in such a short time is phenomenal."

- Results within minutes
- Verified quantities
- Daily data-based decisions

Track Progress.
Show Performance.

Workflow

Setup your project in SDX-Cloud

Scan the terrain - while the machine is moving

Configure analytics once (surface comparisons, cut/fill)

Monitor and decide: volumes, progress, heatmaps, reports, ...

Volume calculations for accurate bidding and billing processes

Geo-referenced images for documentation and deeper understanding

Comparisons to understand changes on site as early as possible

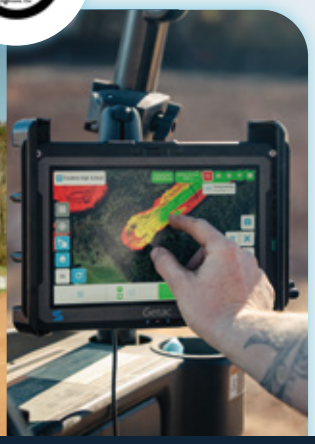

Clear dashboards with important numbers for all stakeholders

Export data for billing, reporting and planning in just a few clicks

Seth - Senior Project Manager
F.M. Kitchens

"By the time we shut the machine down and get back to the office, the data is already there. You open up your computer and it's all there."

Technical Details

scanning range	115 ft (35 m)	138 ft (42 m)
max. speed	25 mph (40 km/h)	25 mph (40 km/h)
field of view	180°	360°
accuracy	RTK-accuracy	RTK-accuracy
